RE: Notification of EOC and MAP scores released

To Parents/Guardians:

Central Elementary and T.S. Hill Middle School students participated in the MAP state assessments during the spring of 2016. The Dexter Senior High School students who were in the following courses Algebra I, ELA II, Biology, and Government participated in the End of Course exams the spring of 2017.

The individual student scores have been provided by the testing centers to the district. The official scores to disseminate to parents will be available during Dexter's school wide district enrollment day. You will be able to pick up your child's scores during this time.

Thank you for providing us the opportunity to educate your child.

Sincerely,

Dexter School District
