

**Adopted Resolution 11/16/10**

Resolution: the Dexter R-XI Board of Education recognizes the value of adopting procedures which provide guidance in the complex process of implementing Board Policy. The Board also recognizes the impossibility of creating procedures which will be all-inclusive and fully-applicable in all situations dealing with the implementation of Board policy.

Therefore, the Dexter R-XI Board of Education resolves to clarify that adopted administrative procedures which are referenced to specific Board policy serve only as guidelines and considerations in the daily application of sound teaching and administrative practices and District personnel may be required to address situations not specifically contemplated by the administrative procedures, depending upon the specific circumstances of each situation.
